

Historically, the only way you could protect your deposits greater than the FDIC insured limits was to open multiple accounts at multiple banks. It could be a juggling act, managing transfers of ownership, registering accounts in family member names or setting up Trusts, partnerships, corporate affiliates, all to guarantee your deposits were given full insurance protection.

TriState Capital offers CDARS, a service that can make managing your CD investments remarkably simple.

TriState Capital's CDARS Certificates of Deposit:

Your CD investments
