

Job Title: Credit Underwriter
Department: Credit

Job Summary:

Responsible for the financial analysis, underwriting, and review of C&I credit risk for potential and existing clients. Has responsibility for monitoring an assigned credit portfolio and maintains a thorough understanding of the content and aggregate risks within the portfolio, trends, and other key statistics.

Job Requirements:

- Bachelors Degree in Finance, Accounting, or a related field required. MBA preferred.
- Minimum 5 years of credit analysis or related experience.
- CPA preferred.
- Demonstrated ability to apply sound economic and accounting principles and practices to the review of credit risk.
- Must have strong analytical and project management skills.
- Exemplary written and oral presentation skills are necessary for success in this position.

Job Duties and Essential Functions:

- Completes in depth analysis of financial data and other information provided by the client and/or the lending officers. Supplements analysis with research and evaluations from a wide variety of sources to develop an assessment of client, competitor and industry risks and trends.
- Summarizes recommendations with supporting financial reports and provides recommendation to Loan Committee.
- Monitors an assigned credit portfolio and obtains and spreads updated financial information to prepare periodic or quarterly financial reviews.
- Supports activities associated with audit, compliance and related underwriting efforts.
